PERMIT APPLICATION: NRS#06.306

APPLICANT: ASGARD Group
ATTN: David Taylor
P.O. Box 271
Antioch, TN 37013
(615) 568-1700

LOCATION: Unnamed tributary to Mill Creek on south side of Lebanon Pike, just east of the intersection of Spence Lane and Lebanon Pike.
Davidson County
Lat/Long: approx. 36.1528°N/-86.7208°W

WATERSHED DESCRIPTION: Lower Cumberland Cheatham Reservoir watershed, spring fed stream located at top of watershed, flows into what was determined to be a wet weather conveyance approximately 50 feet downstream, continues as a wet weather conveyance until entering a storm detention pond which drains ultimately to Mill Creek.

PROJECT DESCRIPTION: The purpose of this project is to provide a grade suitable to build Phase 1 of Spence Enclave Townhomes. The applicant proposes to encapsulate approximately 50 feet of a spring fed tributary in a 24-inch RCP. Approximately 35 feet of fill will be placed over the existing spring and proposed culvert. Mitigation for the non-road culvert includes payment to the in-lieu fee Tennessee Stream Mitigation Program (TSMP) in the amount of \$10,000 (50 ft. x \$200/ft). *In accordance with the Tennessee Antidegradation Statement (Rule 1200-4-3-.06), the division has determined that the proposed activity will not result in degradation to water quality.*
